

a different person.

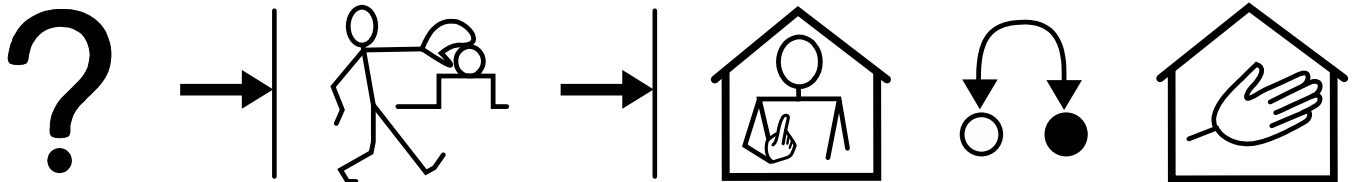

My transport to school has a driver

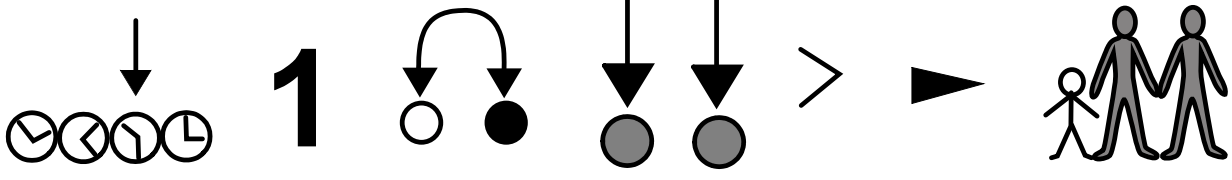

and another person called an escort.

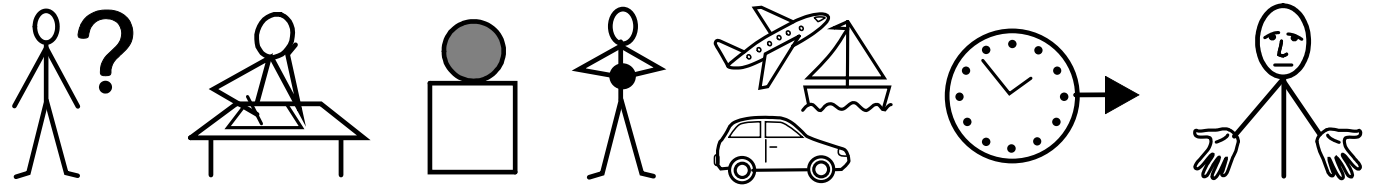

how to get to my house or respite.

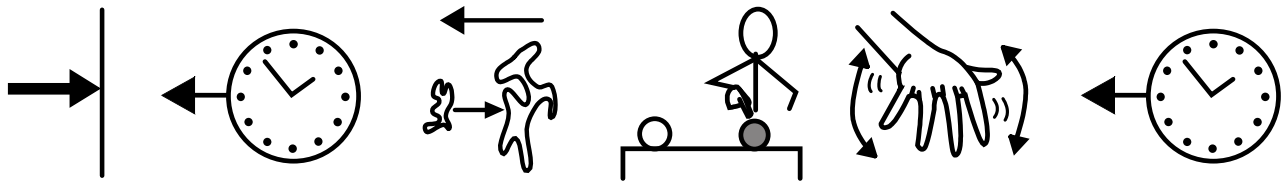

Sometimes one or both of the adults

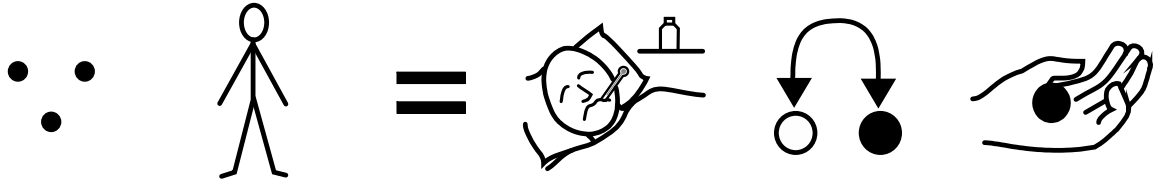

who work on my transport will need

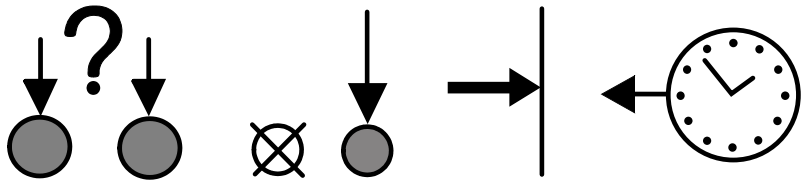

to be changed. This could be

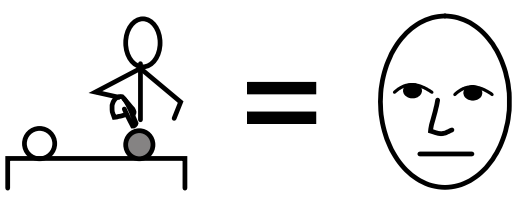

because someone is ill or has

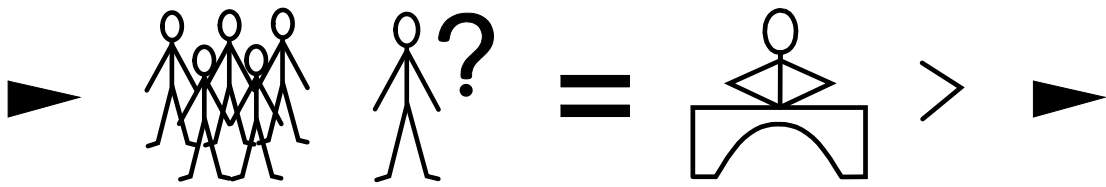

somewhere else to be.

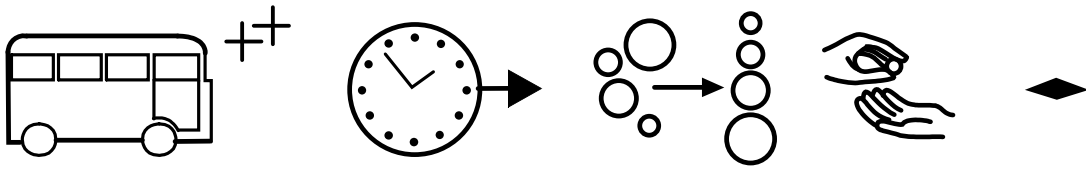

This is ok.

The people who are in charge of the

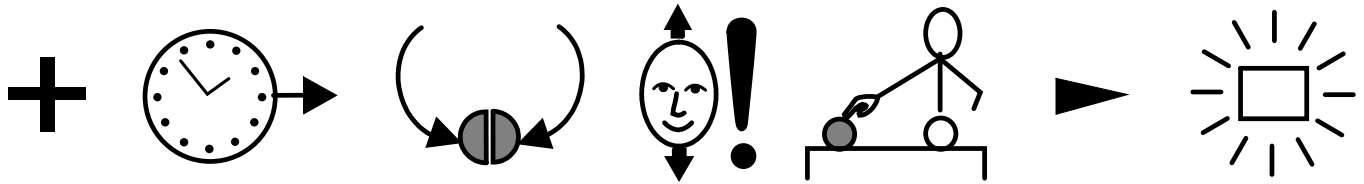

buses will arrange for a

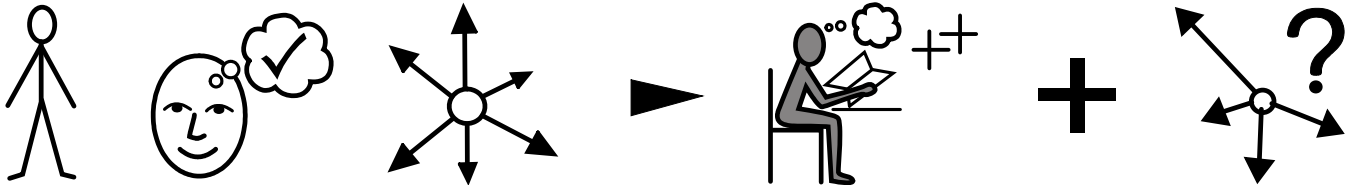

different person to be on the bus

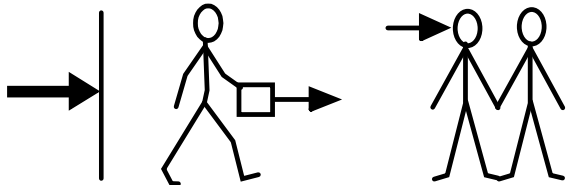

and will make sure that the new

person knows all about the students and where

to take them.

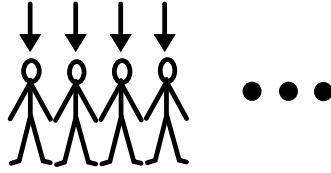

I can

help

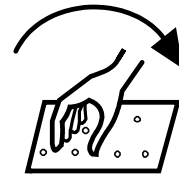

everyone if

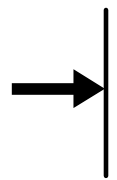

I

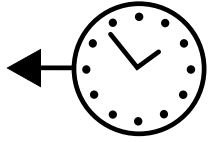

try

to

be

calm

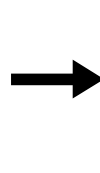

and

listen

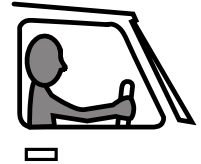

to

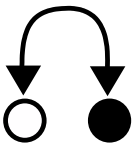

the

driver

or

escort.
