

What

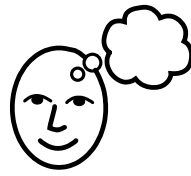

does

it

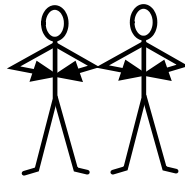

mean

when

we

are

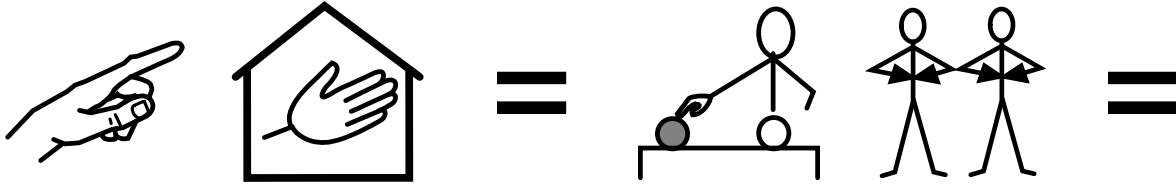

going to

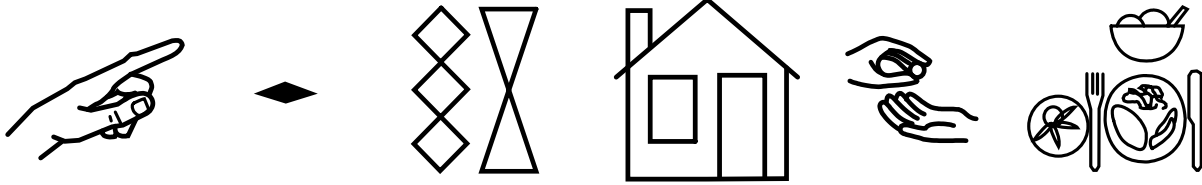

respite

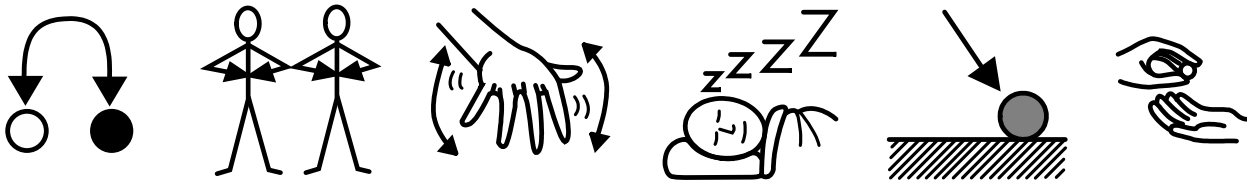

Going to respite means that we are

going to a different house for tea

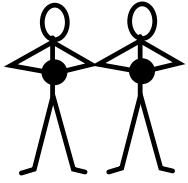

or we could sleep there for

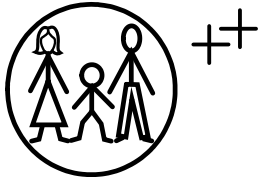

one or two nights.

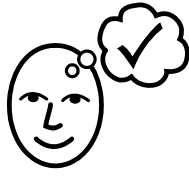

Our

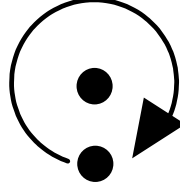

families

know

about

the

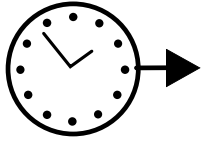

respite

and

will

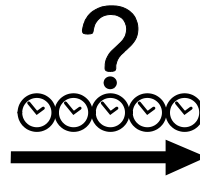

tell

me

how long

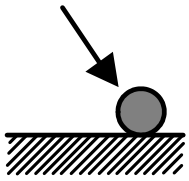

I

will be

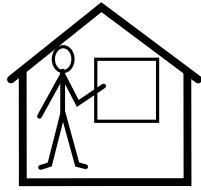

there

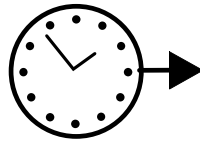

for.

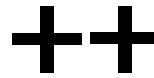

School

will

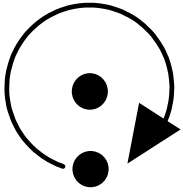

also

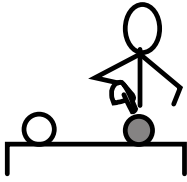

know

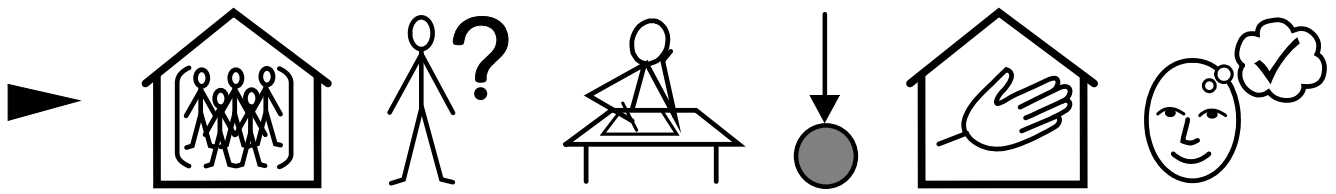

about

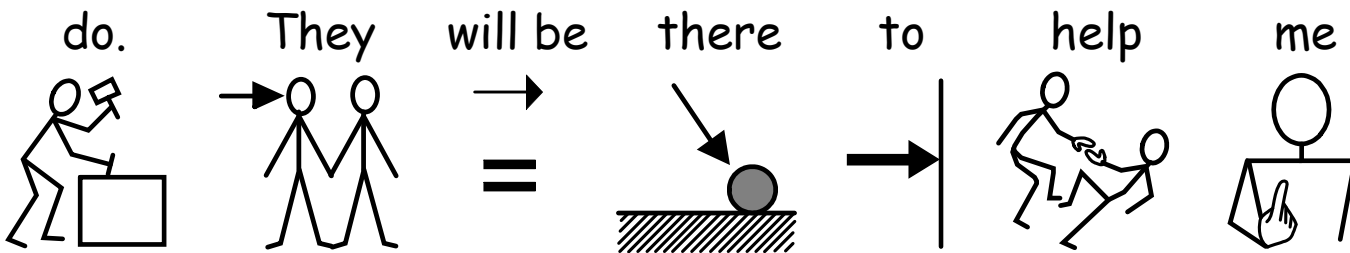

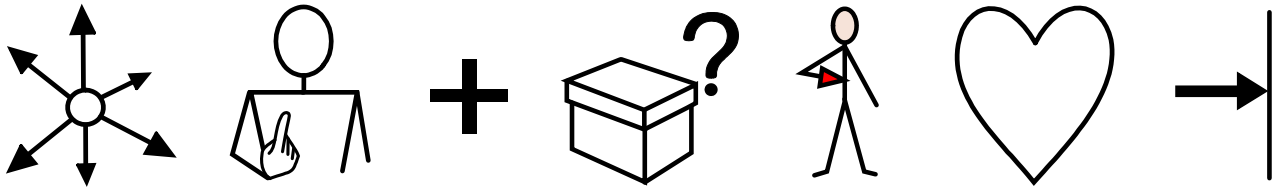

this.

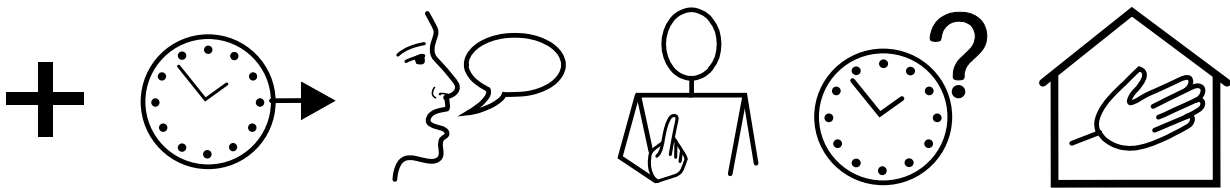

The staff who work at respite know

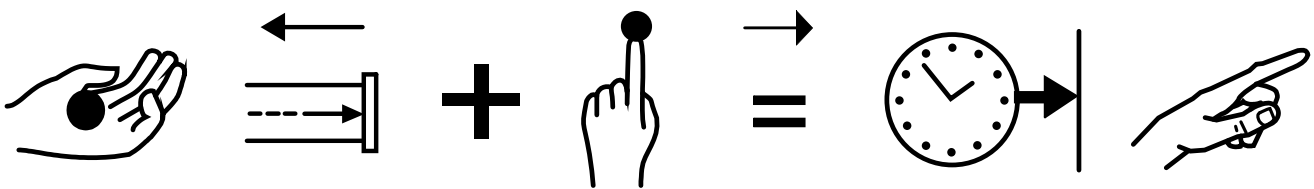

all about me and what I like to

and will tell me when respite

has finished and it will be time to go

home or back to school.
