

We are going to have

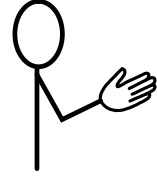

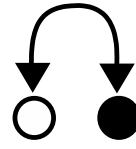

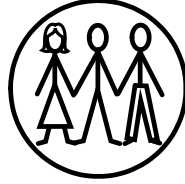

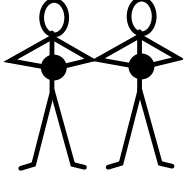

a meal at a restaurant.

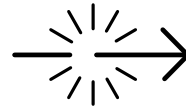

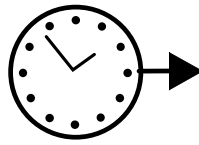

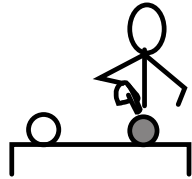

We are going to have a meal at

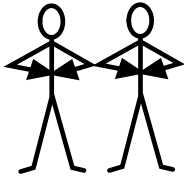

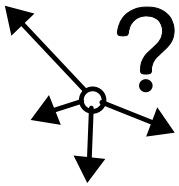

a restaurant. Our family or carer's

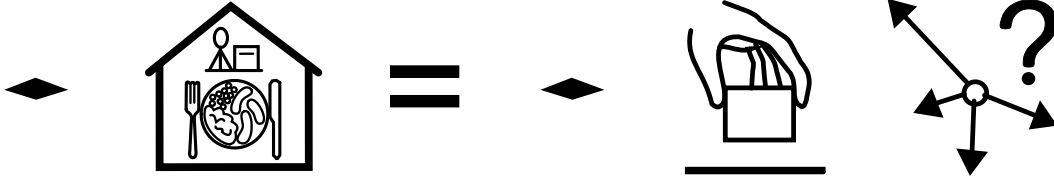

know when this will happen and

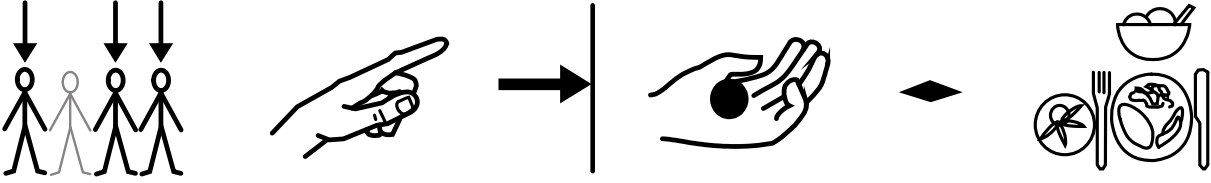

where we will be going.

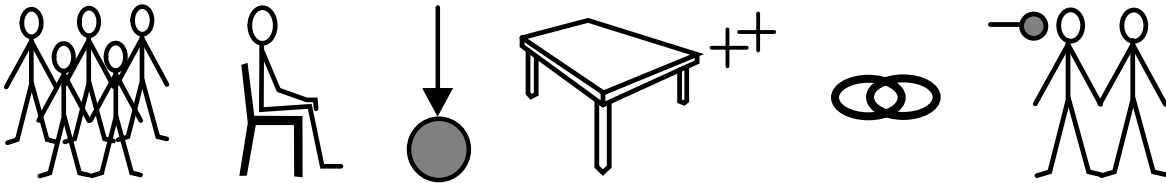

A restaurant is a place where

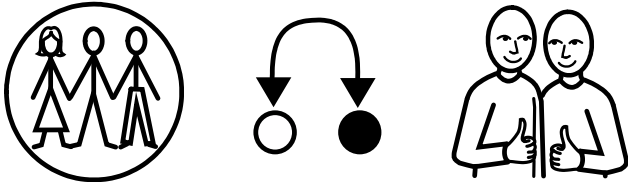

lots of people go to have a meal.

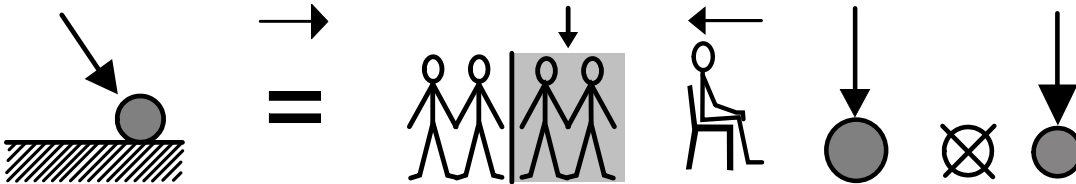

People sit at tables with their own

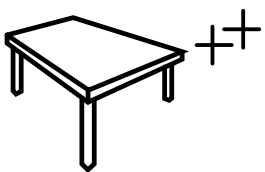

family or friends.

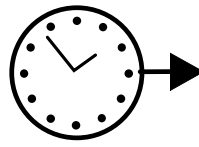

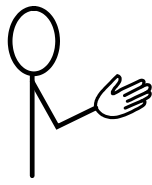

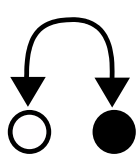

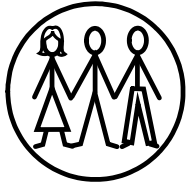

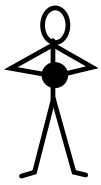

There will be other people sat at other

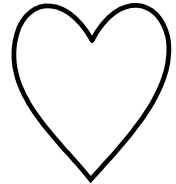

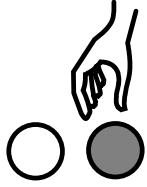

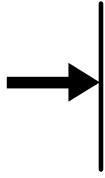

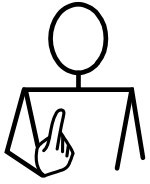

tables.

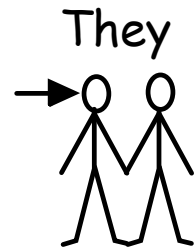

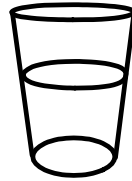

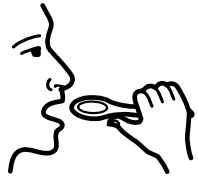

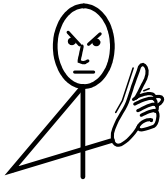

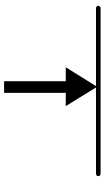

My family or carer will help

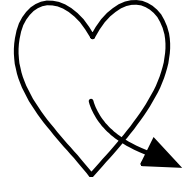

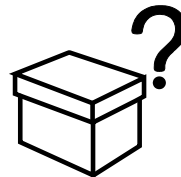

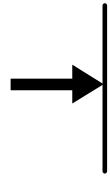

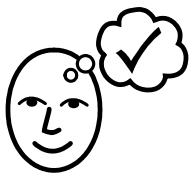

me to decide what I would like

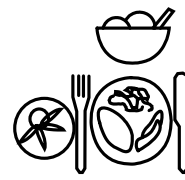

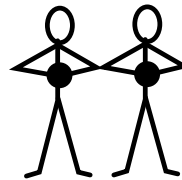

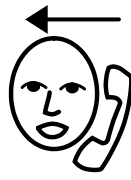

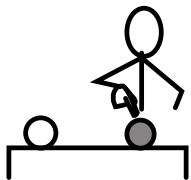

to have to eat and drink.

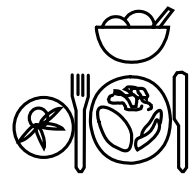

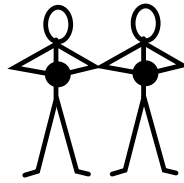

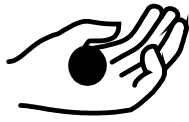

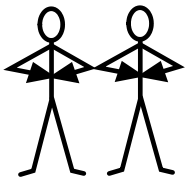

know who to tell what I want.

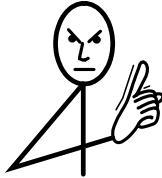

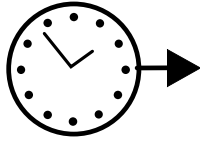

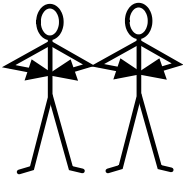

This is called ordering our meal.

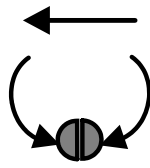

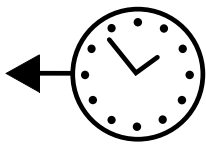

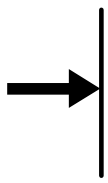

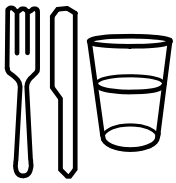

When we have ordered our meal

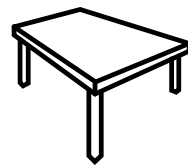

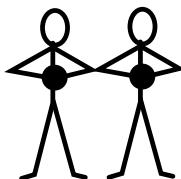

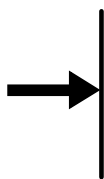

we will have to wait for the

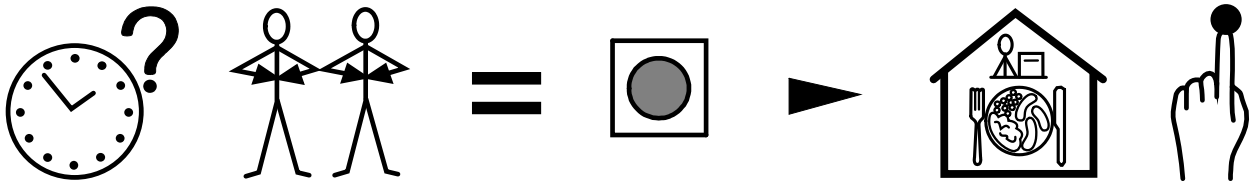

food and drink to be made and then

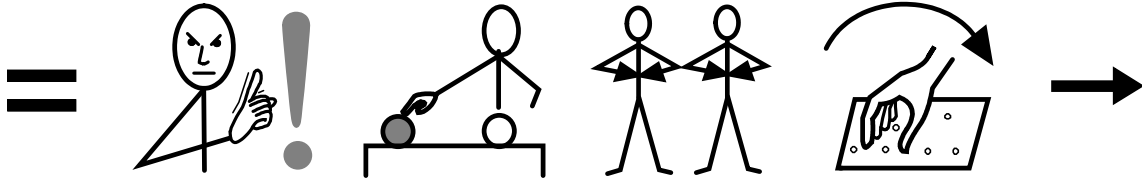

it will be brought to our table.

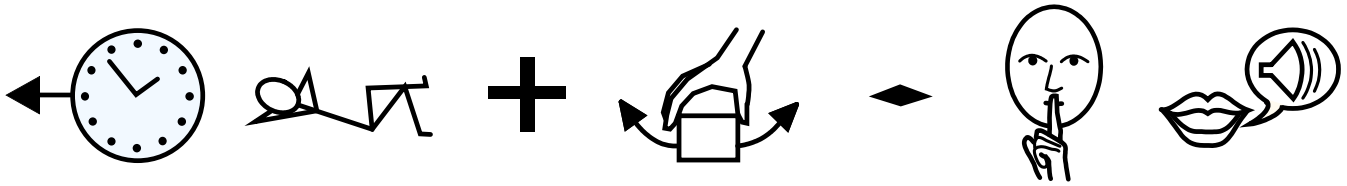

When we are in the restaurant it

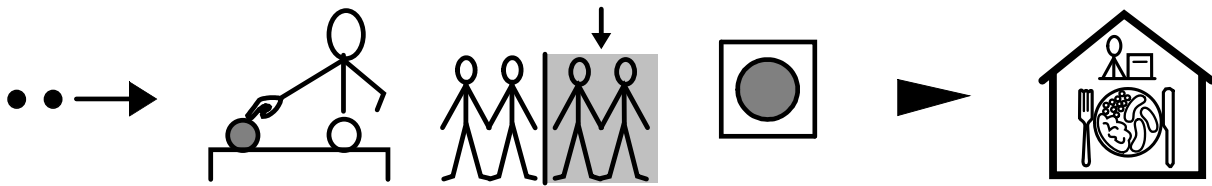

is important that we try to

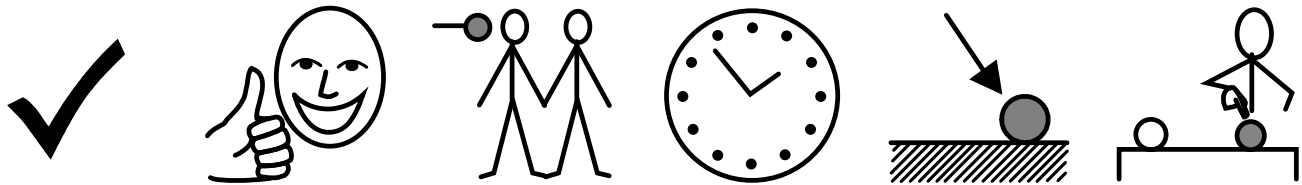

be calm and use a quiet voice

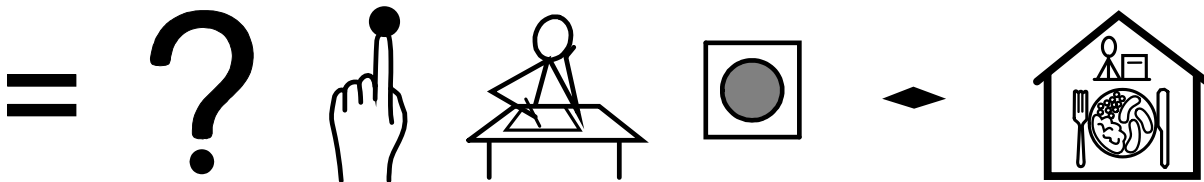

so that other people in the restaurant

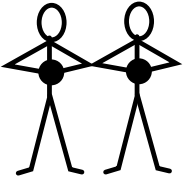

can enjoy their time there. This

is how it works in a restaurant.

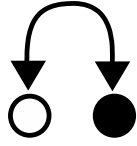

Our

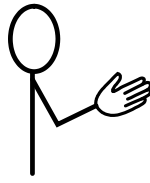

family

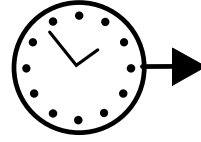

or

carer's

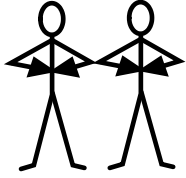

will

tell

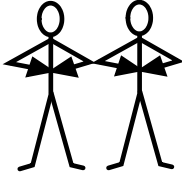

us

when

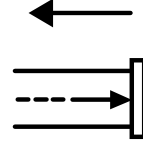

we

have

finished and

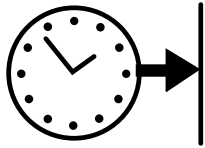

it

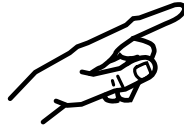

will be

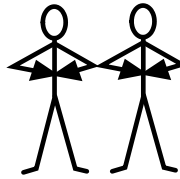

time to

go.

We

could

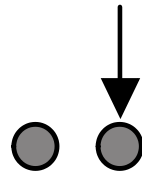

go to

a

restaurant

another

day.
