

What happens when

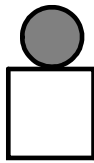

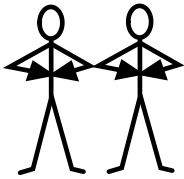

we

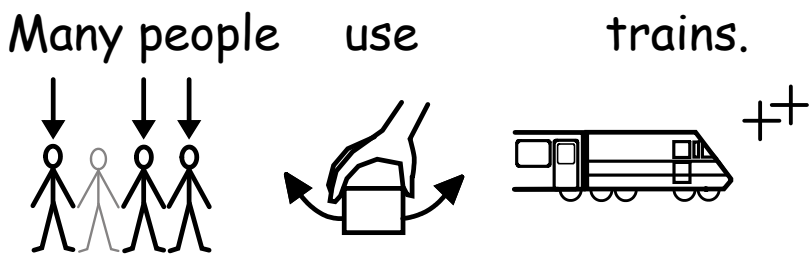

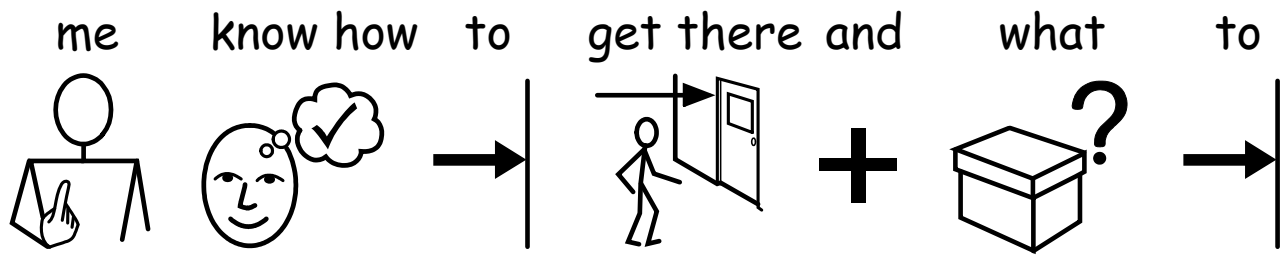

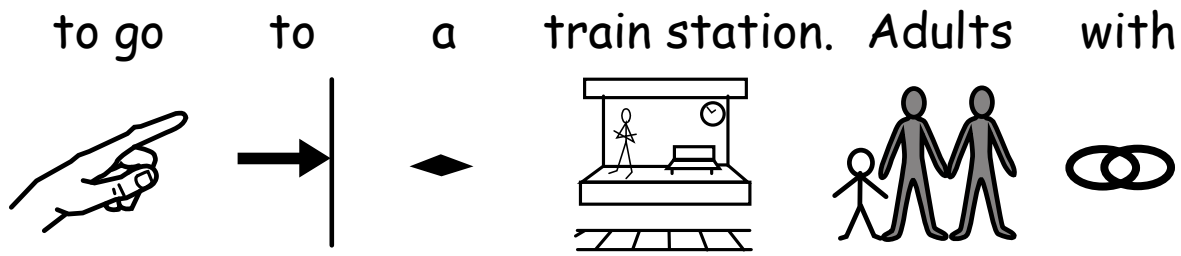

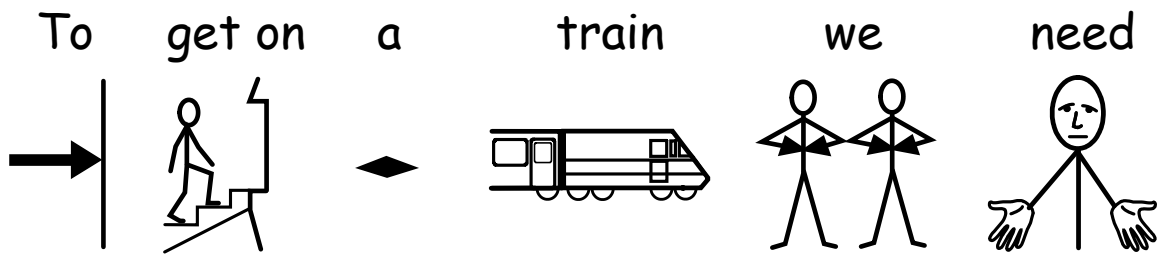

go

on

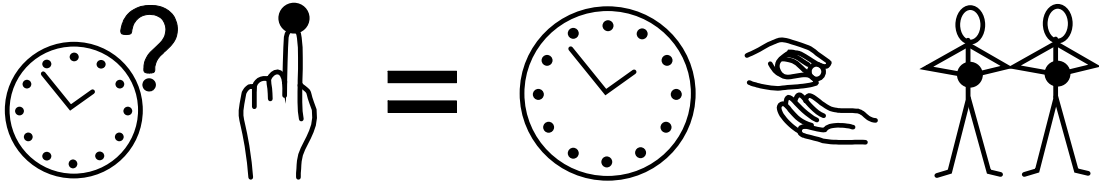

a

train?

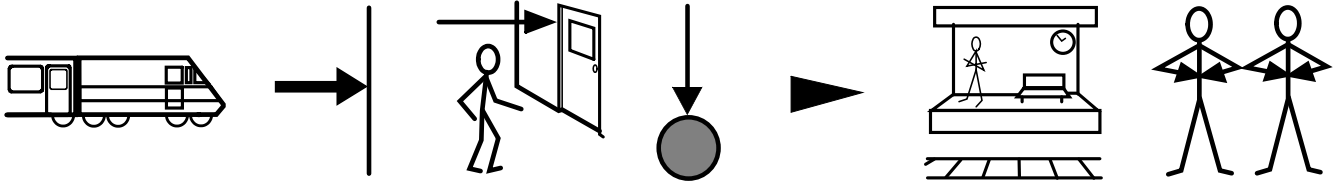

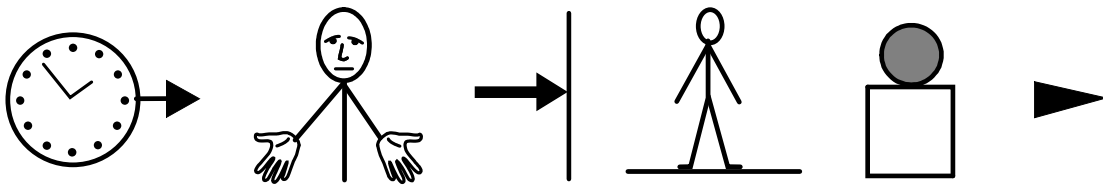

When it is time for our

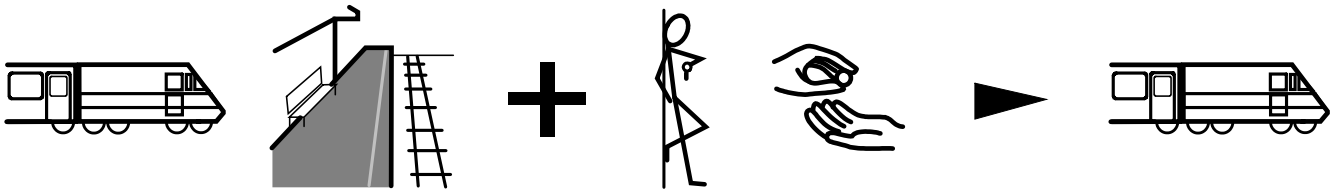

train to arrive at the station we

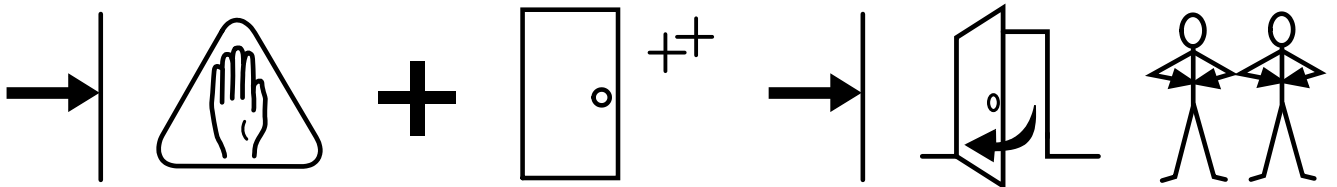

will need to stand on the

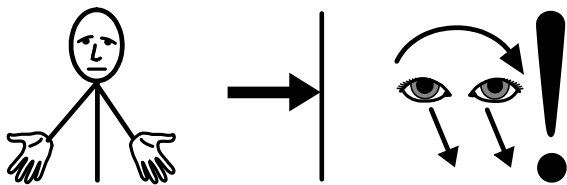

train platform and wait for the train

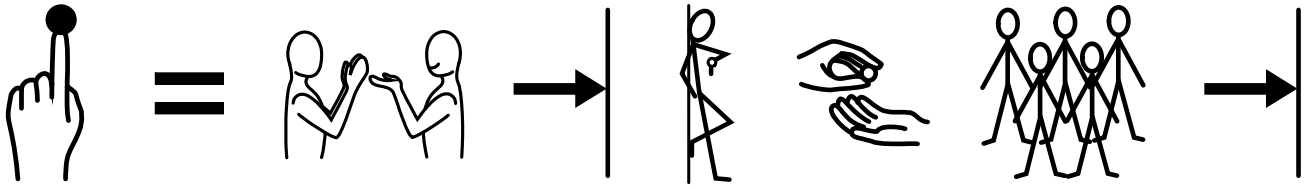

to stop and doors to open. We

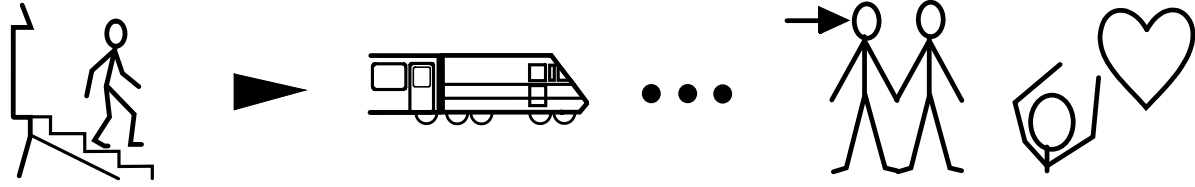

need to be careful.

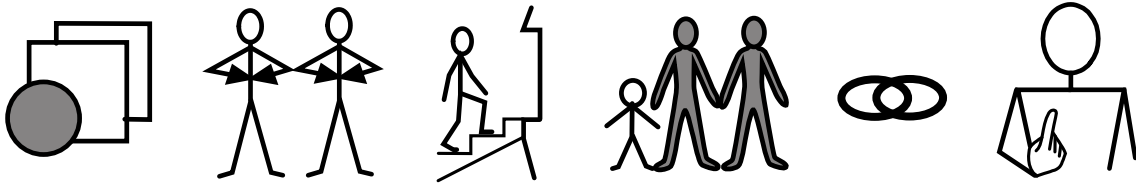

It is polite to wait for people to

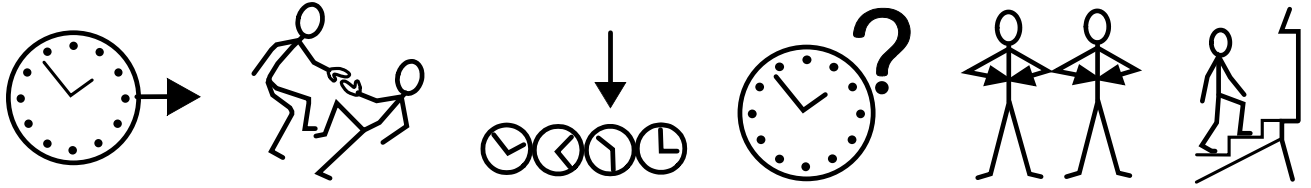

get off the train if they want to

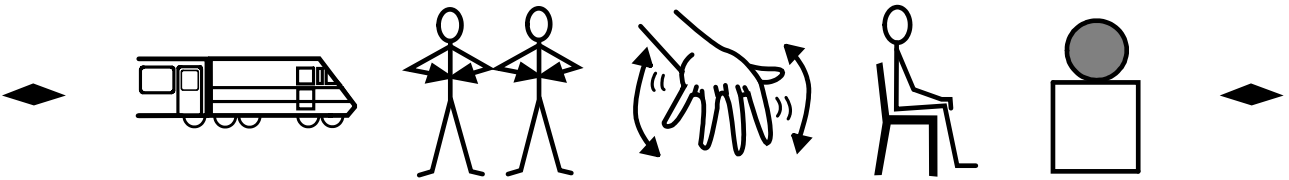

before we get on. Adults with me

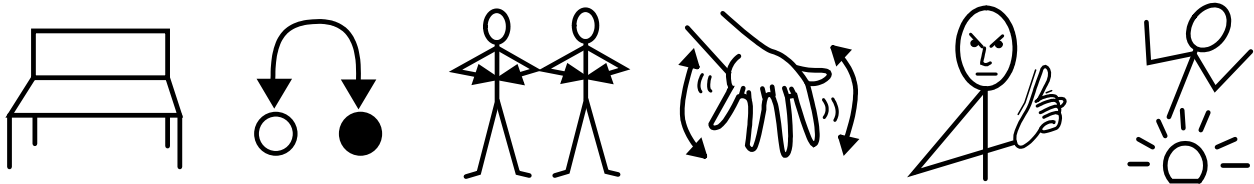

will help. Sometimes when we get on

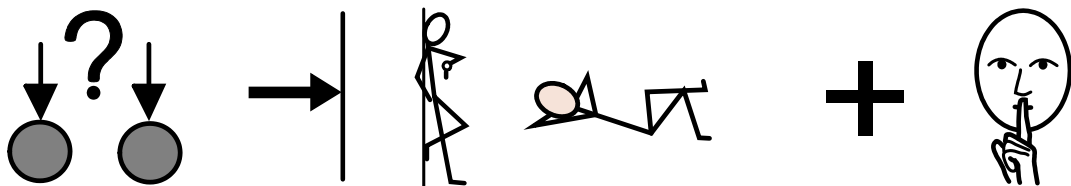

a train we could sit on a

seat or we could have to find

somewhere to wait calmly and quietly.

Trains

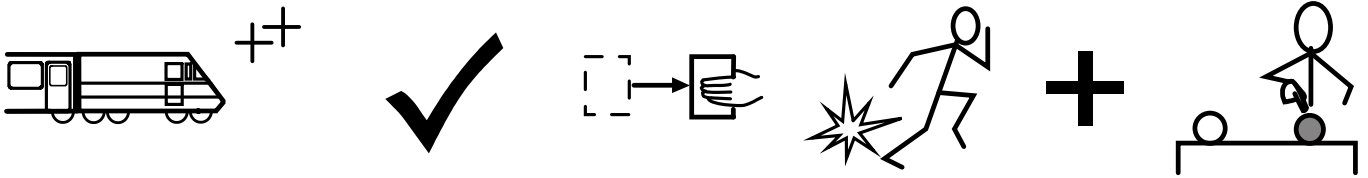

can

move

fast

and

this

could

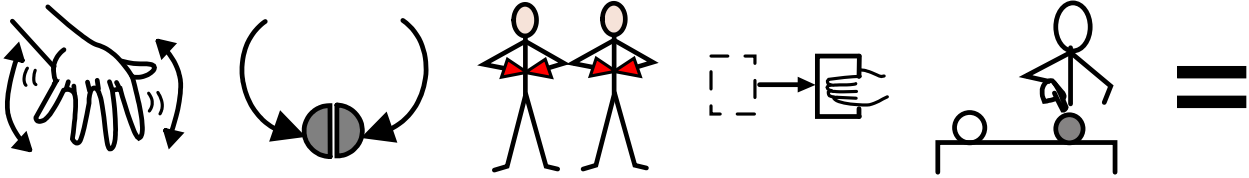

make

us

move.

This

is

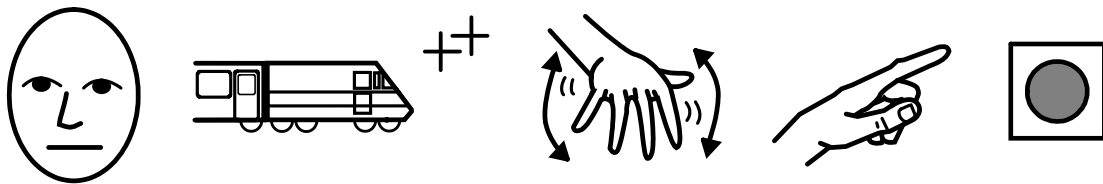

ok.

Trains

could

go

in

tunnels

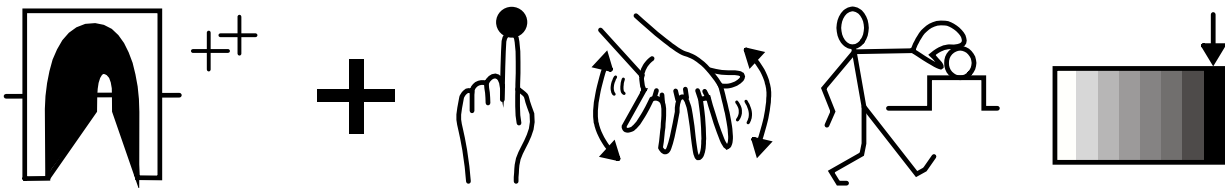

and

it

could

get

dark.

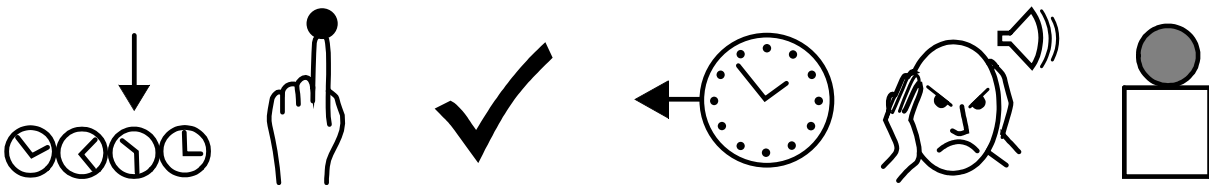

Sometimes it

can

be

noisy

on

a

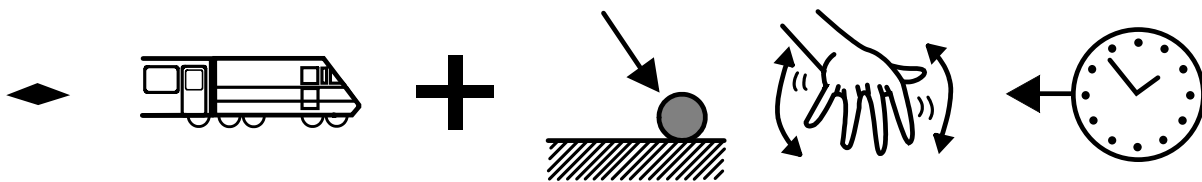

train

and

there

could

be

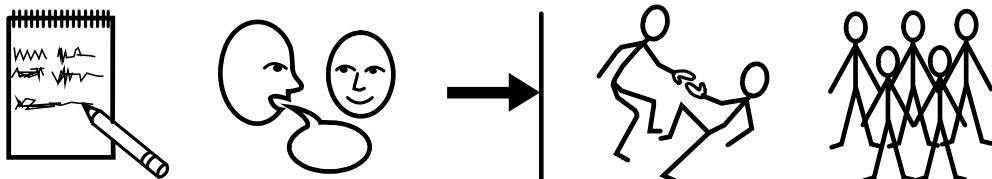

messages

said

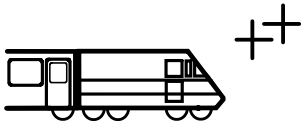

to

help

people.

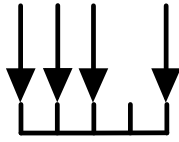

Trains

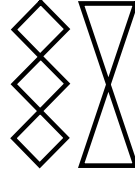

go to

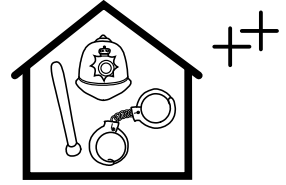

lots of

different

stations

and

people

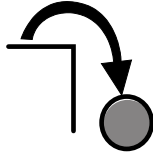

get on

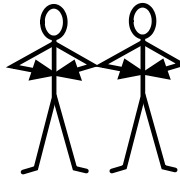

and

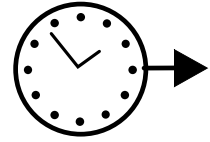

off.

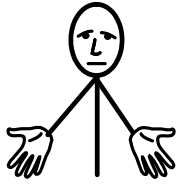

We

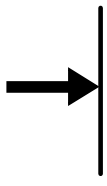

will

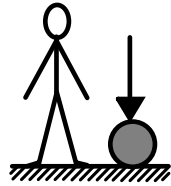

need

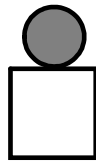

to

stay

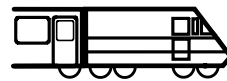

on

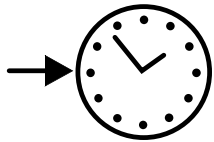

the

train

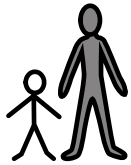

until

the

adult

with

me

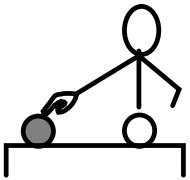

tells

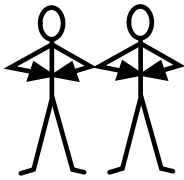

me

that

we

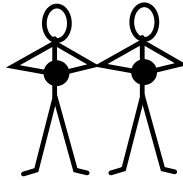

are

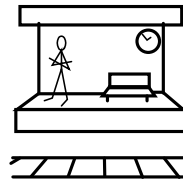

at

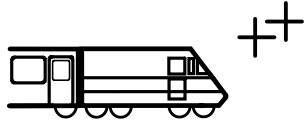

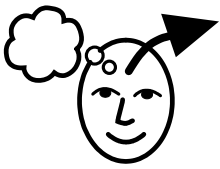

our

station.

Remember, trains and stations can

be

busy

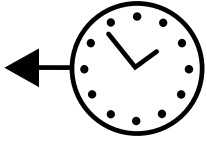

but

I can

help

if

I

listen

to

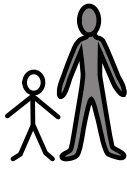

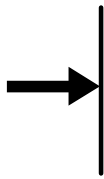

the

adult

with

me

and

try

to

be

calm.
