

Hospital

story

Soon it will be time for me to go

to the Hospital. My family and carer's

know when this will be happening and

will tell me.

We could have to wait at the Hospital.

It could be busy and noisy.

Staff at the Hospital have lots of

training to know what to do to

help people to be healthy.

We could see a Doctor or a

nurse. We could see other people. We

will be safe.

The people at the Hospital may need

to look at different parts of your body.

They may need to touch you.

They may need to use special things.

This is ok. They know what to

do. Our family or carer will be

there to look after us.

The people at the Hospital will

tell us when we are finished.

Remember, the people at the Hospital

know how to help people. You

can help them by trying to

be calm.
