

## Woodfield School

**‘Sharing, Caring, Achieving Together’**

### **SOCIAL PARTNER PATHWAY**

#### Social Partner Pathway

Social Partners are operating in the here and now. They benefit from frequent social interaction with a trusted adult. Social Partners are learning to use body language, gestures and facial expressions to communicate. They are developing their joint attention skills and the underpinning skills for symbol/language use. In our school, this is approximately 15% of our cohort.
