

Class 3 are a dynamic and active class of 10 pupils who are Year 2 and Year 3 with a mixture of needs. In Class 3 we are learning many different important life skills through our lessons including preparing food, tidying up, organising and sorting, constructing sentences, going out in the community and using problem solving. Some pupils use individual work stations with TEACCH systems to help them develop their concentration and attention skills. Class 3 also learn through many different personalised mediums including Intensive Interaction, Attention Autism, Sensory Circuits and self-regulation, Lego based mediums, Rebound, Yoga and Music Therapy. These personalised therapies are very important to the class.

Class 3 also love having fun as a group! You will often find us playing chase at playtimes or squealing with delight during a 'Big Book' as a giant bear is revealed!
