

Class 6 is made up of 11 pupils and 4 TA's. We focus on enhancing independent in our daily lives; this includes learning to communicate appropriately, use money and accessing the local community. We are currently reading Harry Potter for our class story and learning to describe our favourite characters. Pupils take part in a weekly cooking lesson learning to develop key skills such as cutting, grating, peeling and learning to use the microwave and oven safety.

Some of our pupils work with the Work Related Team to take part in café skills lessons and the charity shop. As part of our relationships work, we take part in a weekly session with two different mainstream school groups as part of integration sessions in which we learn to work with others and develop our social skills.
