

We are class 8 we have 9 pupils and 5 TAs. Our teacher is Susie. We really enjoy our time together in school, learning about lots of different things. Class 8 is mainly a KS3 and 4 class although one of our pupils is in KS5. In our class there is a strong emphasis on developing our mobility skills which we do through our Me and My physical Development part of the curriculum and interventions such as MOVE and Rebound therapy. We also have a very strong focus on our communication skills. We use a variety of communication systems including both visual and auditory scanning PODD books.

In Class 8 we follow a destination led learning curriculum (to prepare for our future) and work towards becoming more independent in our everyday life. Sometimes we work together; sometimes we work on our own. We build on the work achieved by the in the primary part of the school and transfer these skills into preparing us for life in our 14 to 19 class and beyond.
