

Dear Parents and Carers,

Hope you are all keeping well and staying safe.

Below are a couple of video links which may be useful:

ROBert explains the corona virus to children | PLAYMOBIL

This video explains the corona virus to young children. This movie uses PLAYMOBIL to help explain in a way that children might understand what is happening right now, what we can all do to ease the situation, and why it so important to avoid contact with other children and adults.

This may be useful for some of our pupils, or siblings, who are struggling with the current situation.

Coronavirus explained in Makaton

Some of our pupils, or siblings, may be struggling right now, perhaps through lack of routine or not understanding how things are.

In this video Coronavirus is explained using Makaton.
